Integrating Scientific Knowledge in Mixed Forests

EuMIXFOR Final conference

Cost Action FP1206

COST is supported by the EU
Framework Programme Horizon 2020

The European Network on mixed Forests, EuMIXFOR, has contributed to the understanding, managing and future of mixed Forests. We invite you to join our final conference where relevant results and future perspectives of the role of mixed Forests in the provision of ecosystem services will be addressed.

Scientific scope of the Conference:

Mixed Forest Dynamics and Functioning

- Water and nutritional balance of mixed forests
- Carbon sequestration
- Structural and functional biodiversity in mixed forest ecosystems

Adaptive Management of Mixed Forests

- Quantitative and qualitative productivity
- Sustainable forest management of mixed forest
- Conversion of pure forests and monocultures
- Mixed forests as the measure of Mitigation/Adaptation to the Climate Change

Policy and Social Impact of Mixed Forests

- Non-productive functions of mixed forests
- Socio-economics of mixed forests
- Mixed forest as natural/cultural heritage

IMPORTANT DATES:

- 1st Announcement February 2016
- Call for Abstracts March 2nd 2016
- Abstract submission: April 15th 2016
- Acceptance of communications: May, 2016
- 2nd Announcement and preliminary program: May, 2016
- Final program: September, 2016
- Conference October 5-7, 2016

Conference venue

The Masaryk Dormitory is situated in a strategic location in Dejvice, Prague 6, just 20 minutes away from Prague Vaclav Havel international airport, with excellent public-transport access to the city centre, and with good motorway links.

Meeting organization:

The meeting is organized by Forestry and Game Management Research Institute, Jíloviste – Strnady and Mendel University in Brno
